

REPUBLICANS AND THE TARIFF.

The Republican leaders are quoted as saying that the tariff will be not an issue in the next Presidential campaign. This opinion is not unanimous, however, as Major McKinley, who is recognized as a Republican leader and a possible candidate for President, desires to ignore the financial question and make the tariff the paramount issue.

Existing conditions, however, are against Major McKinley. New England is fairly well satisfied with the present tariff. Wool and cotton manufacturers get raw material at bedrock prices and their products are protected from foreign competition by duties ranging from 15 to 50 per cent. of their value. This has given an impetus to manufacturing, and one of the results is an increase of the wages of operatives. Woolen and cotton mills in New England and Pennsylvania voluntarily increased the wages of about 70,000 employees from five to fifteen per cent. in April. American woolen goods are being shipped to Europe and are being sold in England at a lower price than English goods of a similar quality.

The iron and shoe trades are also flourishing, considering the scarcity of money. H. C. Frick & Co. and other firms in the Western Pennsylvania coke district, have increased the wages of 15,000 employees 15 per cent. The Bethlehem Iron Works have a \$4,000,000 contract for supplying armor plate to Russia, and boots and shoes made in Massachusetts are being sold in England at lower prices than the local manufacturers can sell the same class of goods.

The plate works are being erected in Indiana, notwithstanding the reduction in the tariff. The San Francisco Call, a Republican paper, reports Isidor Durrant, manager of the California Canning Company, saying that the canneries in San Francisco alone will save \$250,000 this year in tin used in making cans through the reduction in the tariff. Last year \$3,500,000 worth of canned goods were shipped out of California, and this year he thinks the shipments will amount to \$4,500,000. The *Evening News* says if San Francisco alone will save \$250,000 in the price of tin used in making cans, it is reasonable to estimate that the whole State will save five times as much, or \$1,250,000, which means a dollar a head for every man, woman and child, Chinaman and Indian in the State.

Of course the Tariff Act of 1891, like all tariff acts, is in very many respects what the East wanted. It gave them cheap raw material and protected the articles manufactured from that material. They get wool free, cotton free, hides free, and flour, pork and beef cheaper than they can be purchased in Europe. The wool-grower of the West suffers by reason of wool being on the free list, but the Eastern manufacturer profits by it directly and the whole people indirectly, as they get cheaper clothing, and as the East is satisfied the Republican managers will not make the tariff an issue in 1896. The operatives, whose wages have been increased, will be taught to believe that if the mints are opened to silver, as they are now to gold, they will be robbed of one-half their wages, and that any legislation that tends to enhance the price of farm products will be detrimental to their interests, and therefore they must sustain the gold standard, regardless of consequences to the West and South.

SILVER MEN AROUSED.

The free coinage members of the Missouri Legislature have adopted a resolution favoring the free coinage of silver at the ratio of 16 to 1. The discussion caused a feeling which will probably result in holding a State convention similar to that which is to be held in Illinois next month. A majority of the people of Missouri are said to be in favor of free coinage and they desire to proclaim their sentiments through a State convention.

In Texas the silver men have issued a call for a convention to be held August 6th. They ask that precinct meetings be held on July 20th to elect delegates to the convention. Judge Reagan, for many years United States Senator and the author of the Interstate Commerce bill, is one of the leaders of the movement. The gold men have also issued a call for a State convention, but outside of the cities, where banks are under obligations to the Gold Trust and merchants are under obligations to the banks, the gold men are few and far between.

In Indiana Senator Voorhees has disavowed his allegiance to Cleveland and declared for free coinage. He is in favor of the fight going on to a finish. Let us find out who governs this country, the plain, honest millions who toil, or the blood-suckers who thrive on the misfortunes and indebtedness of the people. The real and vital issue now presented to the American people is the proposed elimination of silver from our currency, its overthrow and destruction as a money metal, and the use of gold alone. If the movement succeeds it will double the burdens of every debtor and multiply the gains of every creditor wherever the sun shines.

SIBLEY FOR PRESIDENT.

The Colorado Road, an out-and-out Populist paper, hoists the name of Joseph C. Sibley as its Presidential candidate in 1896. Through it is as

strong and consistent a Populist paper as there is published, it says: "In hoisting the name of Mr. Sibley we know we are hoisting the name of as good a Populist as breathes, and if all Silver party men are no more to be feared than Mr. Sibley the Populists would be in mighty big luck in 1896. We believe in erecting no barrier against any line of reformers. We are trying to mobilize all under one banner and with 2,500,000 votes to start with, Populists would be rank ignoramus if they could not get inside and come pretty near having things their own way with the one plankers. Will it pay to decline a proposition to fight on the demand per campaign provided the demand is named by the Populists? Cleveland has thrown down the gauntlet. Everybody on top of God's green earth can afford to fight on the line he lays down."

THE JURY DISAGREES.

The Inquest Concerning Blanche Lamont's Death Over.

MAY END IN REVOLUTION.

Foreign War Vessels Assembling at Japanese Ports.

BLANCHE LAMONT.

The Coroner's Inquest as to the Cause of Her Death.

SAN FRANCISCO, May 1.—The Coroner began the inquest concerning the death of Blanche Lamont this morning. Mrs. C. G. Noble testified that Theodore Durrant frequently called at her house to see her niece, Blanche Lamont. He escorted her to the park Sunday afternoons, and frequently went to school with her. Durrant had proposed to her last December. Blanche at first withheld her answer, but learning he was engaged to another girl refused him.

C. G. Noble, uncle of the dead girl, testified that Durrant had come to him after Blanche disappeared and suggested that she might be in a house of ill-fame, and offering to search disreputable houses for her.

John E. West, a street railroad conductor, stated that Durrant and Blanche Lamont boarded his car on April 3d, after school. Three school girls also identified Durrant as having taken Blanche away after school the last day she was seen.

George R. King, the organist of Emmanuel Church, retold the story about Durrant coming down from the rafters looking pale and sick, saying he had been affected by escaping gas. King tried to protect Durrant in his testimony.

Martin Quinlan, an attorney, positively identified Durrant as the man he had seen with a girl answering Miss Lamont's description at 4:30 p.m. on April 3. The pair approached the church.

Quinlan's testimony is considered damaging to Durrant. Dr. Barrett, who performed the autopsy, stated that Blanche had died of asphyxiation. There were seven flugor-mul wounds on the left and five on the right side of her neck. He said it was impossible that Blanche was in a delicate condition. Such a statement was a slander without any foundation.

Detectives told of Durrant's contradictory statements regarding his movements and connection with Blanche.

The case was then given to the jury to the general surprise of all. It was supposed the inquest would last for several days.

The Coroner's Jury has returned a verdict charging Theodore Durrant with the murder of Blanche Lamont.

THE WILDE CASE.

The Jury Could Not Agree on a Verdict.

LONDON, May 1.—In the Old Bailey Court to-day Justice Charles summed up the case against Oscar Wilde and Alfred Taylor. The Justice, in so doing, said that counsel for the prosecution acted wisely in withdrawing the charge of conspiracy brought against Wilde, as he would have ordered the jury to bring in a verdict of not guilty on that specification. He admitted that there was corroboration of witnesses, but the jury, he added, would have to weigh the characters of men like Parker, Wood and Atkins, whom Sir Edward Clarke, in the Justice's opinion, properly described as blackmailers. The Justice also urged the jury not to be influenced by Wilde's writings, saying that many great men had written indecently. The jury must exercise their own judgment as to whether Wilde's letters to Lord Alfred Douglas breathed an unnatural passion, and he also said that the relations between Shelley and Wilde would be interesting matter for the jury's judgment. The jury retired at 1:30 p.m.

The jury could not agree on a verdict. When Sir Edward Clarke, counsel for Wilde, asked for bail, Justice Charles said the application must be made in the Chambers.

Wilde will be tried again at the next session of the Central Criminal Court. Throughout the proceedings to-day he was very pale.

'TIS YET SPRING.

May, the Last of the Three Great Months.

The Close Of Nature's Yearly Revival Season.

Recovery is Now the Most Rapid and Lasting.

Paine's Celery Compound Makes Vigorous Nerves—It Purifies the Blood as Nothing Else Can Possibly Do.

As a Spring remedy, Paine's Celery Compound stands easily first in the careful judgment of the physicians of this country.

This remarkable discovery of Prof. Edward E. Phelps, M. D., LL. D., of Dartmouth college, is in fact so certain first in the estimation of thinking men and women in every calling throughout the United States to-day, that there can fairly be said to be no second.

For strengthening the sick, restoring the spent energies of those who have become nervously exhausted, for purifying the blood and making people well, Paine's Celery Compound has never yet been approached by any sarsaparilla, tonic or nervine. It is superior to them all as strength is superior to weakness. The remarkable results from the use of this great remedy are today known at first hand in every city and village in America.

The people are to-day thoroughly satisfied by personal experience that Paine's Celery Compound makes people well. Where the nerves have been properly fed and nourished, nervousness, inability to sleep, rheumatism and such evidences of debility have entered, Paine's Celery Compound has created a new appetite, restored lost strength and given courage, new blood, and a strong, healthy will to live and get well. Try it.

THE NICARAGUA TROUBLE.

Probability of a Revolution if British Demands are Granted.

LONDON, May 1.—Great Britain has agreed to the proposed settlement of her dispute with Nicaragua if payment of the indemnity is guaranteed. It is said the affair is practically settled.

Colon, May 1.—It is reported from Juan del Sur that there is every probability of a revolution breaking out in Nicaragua if the Government yields to the demands of Great Britain. If the present Government of Nicaragua fails it is contended that it will not be possible to adjust the claims of Great Britain, and this will probably provoke an armed conflict.

Threatening Japan.

LONDON, May 1.—The *Times* publishes a dispatch from Kobe saying that the foreign war ships are assembling at various ports of Japan and that the French vessels have been ordered to prepare for emergencies.

Dinner at the M. E. Church.

A Gentleman

Who formerly resided in Connecticut, but who now resides in Honolulu, writes: "For 20 years past, my wife and I have used Ayer's Hair Vigor, and we attribute to it the dark hair which she and I now have, while hundreds of our acquaintances, ten or a dozen years younger than we, are either gray-headed, white, or bald. When asked how our hair had retained its color and fullness, we reply, 'by the use of Ayer's Hair Vigor—nothing else.'" "In 1868, my affianced was nearly bald, and the hair kept falling out every day. I induced her to use Ayer's Hair Vigor, and very soon, it not only checked any further loss of hair, but produced an entirely new growth, which has remained luxuriant and glossy to this day. I can recommend this preparation to all in need of a genuine hair-restorer. It is all that it is claimed to be."—Antonio Alarun, Bastrop, Tex.

## CAPITAL NOTES.

Carson Mint Drops—Another Shortage or Leakage Developed—Millions Going Out—Honey and Jones—Incidentals.

(Correspondence of the JOURNAL.)

CARSON CITY, May 1, 1895.

In Monday's letter we made mention of instructions received from Washington relative to the present status and conduct of the Carson Mint and the probability that there would be changes made, some employees let out, etc., after the first of the month. In accordance with said instructions, yesterday being the regular pay day, a dozen or more received notice to-day from Superintendent Adams to finish out the week and quit permanently next Saturday. The Cashier and Molder and Refiner will be retained. Superintendent Adams and a clerk or two will be retained, and the seven watchmen will stay until the entire amount of coin and bullion in the vaults has been removed. After that a couple of watchmen will be enough, together with the gardener and general roustabout.

As before remarked, nearly the whole of the \$1,000,000 in unparted gold bullion directed to be sent to San Francisco has already been sent there. About \$400,000 refined silver bullion, and nearly \$6,000,000 in coin will probably be shipped east. The strong boxes for that purpose have already been made at the box factory here, two sacks of coin to occupy each box. The Carson Mint may now be considered abandoned by the Cleveland Democratic administration, same as it was before. Of course this has been expected ever since the Mint defalcation or shortage was discovered and made public, and now we have it.

THE JONES EXAMINATION.

The prosecution thus far has not made much of a case against Jones, apparently not enough to hold him to appear before the U. S. Grand Jury, but it is said that the leading trumpets are held back and will be played effectually at the resumption of the examination before U. S. Commissioner Edwards on the 10th instant. I am credibly informed that Henry, the witness wanted most of all, is now in South Africa, yet perhaps he is not, and will be produced at the proper and decisive time. Henry Piper will also come to the front from Berkeley if wanted. Government Secret Service Harris, the complaining witness in the case, will also be on hand.

But everybody, even Henry's best friends, believe he had as much to do with the stealage as anybody, or knows who did. That spurious or "counterfeit" melt, involving \$22,000 of the shortage, had to be accomplished by collusion of at least three or four parties. It was impossible for one man to do it without being detected in the act. Missing gold granulations have cut no figure in the Jones examination thus far—only bullion melts and bar discrepancies.

Why Henry was brought into the Jones examination by the prosecution at the last end is not exactly understood by outsiders, but may be brought out later on. Beck's testimony was the heaviest of all against Henry, showing a probable \$24,000 or more of the shortage handled by Henry personally. He had also \$2,500 of a ranch mortgage in Washoe county, as can be ascertained at the First National Bank in Reno.

Henry was a poor man when he secured his position in the Carson mint, and he handled all the aforesaid money afterwards as his own. Jones went in with \$21,000 mining stocks and coin in his credit, subsequently losing down to less than \$2,000.

JUSTICE TO THE REPORTERS.

Anyone inclined to consider the reports given to the newspapers of the Jones examination should bear in mind that it was conducted with "closed doors," the general public and the newspaper reporters being rigidly excluded, therefore the reporters had to get the reports each day from the insiders as best they could. Therefore the reports disagreed somewhat in minor particulars and details. It was an arduous and difficult as well as an ingenious job, but the public received the benefits all the same; and the reports throughout was substantially correct, as everybody now knows. The insiders all say so, and anyhow it brought out all the truth in the end. When the examination is resumed it should be with open doors, giving the reporters a better and easier chance. But the true reporter will report anyhow.

INCIDENTALS.

Henry is a stout built, broad shouldered man, of ordinary height, temperate, reserved, economical, and not inclined to sociability. Jones is a slight built, light weight, young man, straight as an arrow, rather fine looking, and not at all resembling Beck's personal description of Henry. Jones always keeps good company, is temperate, does not gamble, and although genial and liberal hearted, he is not a reckless spendthrift by any means.

If the much desired Henry cannot be found, or the mint shortage definitely traced to anybody, will the official bondsmen involved in the matter have to pay the shortage?

The small amount of crude bullion alleged to have been stolen by Henry Piper cannot come in as mint shortage, being stolen from the depositors and not from the mint. He is under bonds to appear when wanted. Piper is easier pined than Henry.

The detectives are all taking a quiet rest during the Court recess, not even the blonde female detective putting in her appearance. All may be said to be "quiet on the Foromac."

## TALKING AT RANDOM.

Please State Facts Not Rumor.

Our neighbor is talking at random about mint matters. The San Francisco Call, not the JOURNAL, is responsible for the statement that gold coins minted at Carson contain more alloy than the law allows. The JOURNAL knows nothing about that as it never had any of the coins tested. It does know, however, that Federal officials were informed on the 22nd of March last by H. H. Beck, a responsible citizen, that one James Henry had over \$20,000 worth of gold, \$39 fine, melted in Reno and disposed of on his account; that the officials claimed to know Henry's whereabouts at that time; that twelve days after that, to wit, on April 2nd, Henry appeared before a Notary Public in the State of California and to him, personally known, and acknowledged and signed a power of attorney. Now, as our neighbor claims to know so much about the action of the officials, will it be good enough to explain why Mr. Henry was not arrested? Some people have opinions, and express them too, on this subject and possibly the facts may change them. It does look a little strange that with Government detectives running hither and yon and cognizant of what is above stated, that Mr. Henry should be permitted to get out of the country. Isn't that so, neighbor?

Camp Stabbs.

The principal excitement at Camp Stabbs yesterday was the incarceration in the guard house of a number of the soldier boys.

The weather was not propitious, and it had a depressing effect on the young soldiers, and toward evening when the rain drops began to fall quietly there were expressions from numerous quarters of the camp of "want to go home," but military officers are cold-blooded when considering the rank and file, and discipline had to be enforced and the boys were told that they must stay.

Target practice was the main feature of the day. For the 100 yard range 75 per cent had to be made to be in the swim and those making this percentage had to make 70 per cent on the 200 yard range to gain a medal, and those making this percentage were allowed to compete on the 300 yard range.

NOTES.

Company C, N. N. G. has been invited to visit the camp on Friday and it is probable that the invitation will be accepted.

Orders have been issued for a meeting of the Major and two Captains to look up the record of every cadet and send in recommendations for the new officers to be appointed on Field Day.

Cadet Egan could not get wet enough during the late storms, so fell in the Orr ditch and was rescued with difficulty.

Jack Henry got cunning and filled his pockets with crackers out of the stores department, so as to have a lunch on the side, but was caught and thrown into the guard house.

Ed. Lashman thinks he is a great seven-and-a-half player, but he is not in it, and two dollars out.

The Senior girls were entertained at dinner by the officers yesterday and enjoyed the novelty.

Brandon is in the hospital, and Callan's pigs feet have incapacitated him for the week, or else he is working the sick game to keep from drill.

A skunk invaded the camp on Tuesday night and nearly routed it without firing a shot. At the first intimation of an attack Lem Osburn climbed the electric light pole and remained on the cross-bar until the enemy had disappeared.

Leeper and Gafford Convicted.

The jury in the Leeper-Gafford case returned the verdict yesterday morning, "Guilty as charged." The prisoners were ordered to appear for sentence on Friday, the 3d inst., and were remanded to jail. Hon. Wm. Woodburn, attorney for Leeper, gave notice of a motion for a new trial.

The circumstances connected with the crime that these two men were charged with, and the subsequent arrest of both, followed by the escape of Gafford from the Reno jail and the escape of Leeper from the Ogden jail and their re-arrest and final trial, has made them notorious and has created considerable speculation as to the outcome.

District Attorney Norcross was the recipient of many congratulations yesterday on his very able management of the State's case, and it being among his first criminal cases, and an important one at that, he is deserving of much praise. Members of his chosen profession watched his conduct of the case with much interest and commended him highly.

An Old Nevada Dead.

J. C. McMahan, an old resident of Nevada, died at Sonora, California, last week. He resided in Franktown in this county in 1875, and subsequently in Ormsby and Esmeralda counties. He was chosen Presidential Elector on the Hancock ticket in 1890. He was an enterprising and energetic citizen and had many friends among old residents of this State.

## BREVITIES.

Geo. T. Rives was a departure for San Francisco last evening.

Wm. Pinniger is expected to arrive from the east on this afternoon's train.

Miss Vonie Stewart of Carson arrived on the V & T last evening and departed for Seattle.

Yesterday morning's passenger was several hours late, the delay having occurred at Blue Canyon.

C. H. Clark, Superintendent of the Sierra Valley railroad, arrived from the north yesterday and remained over.

Al. Helms is having great success in disposing of Victor bicycles. He gives the best of judgements to his patrons and the wheels are satisfactory.

An income tax was first levied in the United States in 1863. It was in force until 1872, and during the nine years there was collected nearly \$350,000,000.

The Leather Trust, which practically controls the leather market, has advanced prices from six to nine cents per pound. The scarcity of cattle is given as the cause.

Harry Epstein, conductor on the U. & C., and J. H. McCormack, conductor on the V & T, will join the Railway Conductors' excursion at Reno May 7. They will visit twenty-six States and traverse 9,000 miles.—Tribune.

Mrs. R. R. Parkinson, E. J. Parkinson and his sister, Mrs. H. B. McAvoy, were passengers for San Francisco last evening. Mrs. Parkinson and son will join Mr. Parkinson at San Francisco and proceed to Seattle, where they expect to reside.

The Regents of the California State University give it out that there will be a deficit of about \$12,000 in the University fund, consequently there will have to be retrenchment and the engagement of new teachers will have to be abandoned.

Mrs. Godfrey, wife of Jack Godfrey, a stableman of Virginia City, shot at her husband on Tuesday night. The shooting was the culmination of a domestic quarrel. Mr. Godfrey was not injured and it is not probable that he will have his wife arrested.

A delicious lunch is served at H. J. Thyes every day from 11 A. M. to 2 P. M. Pork and beans Tuesday, Thursday and Saturday. A side lunch is served each day from 2 P. M. till midnight. A hungry man's appetite can be appeased, or one's thirst quenched by a glass of his fine St. Louis beer. \*my213

The Sierra Valley railroad trains began making regular trips from Oat yesterday, carrying mail and passengers. It has been completed to within a couple of miles of Beckwith and will reach that place within ten days. The people of that part of the country are enthusiastic and hail the completion of the road into the valley as an omen of prosperity.

MELIOR AND BENJAMIN HARRIS.

Not the Kind of a Man Who Steals Bullion.

The defense is now trying to slide the shortage onto H. Harris, the present Molder and Refiner.

In other words they want the public to understand that Harris after stealing \$75,000 reported the same to Superintendent Adams, and demanded an investigation. Looks plausible don't it?

Some months ago George Brown of this city died, and a few days after the funeral Mr. Harris called on Brown's daughter and paid her \$300 he had borrowed from Brown.

The lady was quite surprised. She knew of no such loan. No one knew it but Harris. He borrowed the money on his word and gave no note.

Brown was dead, and the only man who knew of the obligation was Harris, and he came forward and paid it.

Is this the sort of a man who steals bullion from Uncle Sam?—Appeal.

Will Contest the Law.

Company F, N. N. G., of Carson will contest the new military law which deprives the militia of monthly allowances from the State. The other military companies of the State have been notified by Company F to contest the law. The several Companies have been asked to contribute \$20 each to cover the current expenses of the litigation.
